大会简介

Background

2015年，来自广州少年宫儿童媒介素养教育中心的儿童代表获邀参与亚太区互联网治理论坛的工作坊作分享。论坛参加后，儿童和青年代表酝酿了在中国举办讨论互联网相关问题的平台之想法。在政府和社会各界的支持和协作下，2016年中国儿童互联网大会于2016年7月2日在广州第二少年宫举行，来自中国十几个城市的儿童和老师代表参加了此次活动。

In 2015, Child representatives from Children's Media Literacy Education Research Center had been invited as speakers in one of the Asia Pacific regional Internet Governance Forum (APrIGF) workshops. After the conference, the participated youth and children started the idea of organising a platform for peers to exchange view on the Internet Governance issues in China. With the support from the public and the government, the first Chinese Internet conference for children had been held on 2 July 2016, in Guangzhou No. 2 Children's Palace. Child representatives and teachers from over 10 cities had engaged in this event.

以此为基础，来自中国的民间组织，学界，商业界别，政府，科技群体组成多方利益相关者活动组委会，与孩子们合作，开展“中国青年互联网治理论坛- 儿童及青少年互联网大会”项目。项目为[联合国互联网治理论坛（IGF）倡议行动](#)之一。是次论坛也是国际上同类项目的首度尝试，希望扩展参与会议的对象扩展到儿童群组（14岁以下儿童），以及将讨论议题集中于儿童身上。中国青年互联网治理论坛（YouthIGF China）活动组委会在不同的利益相关者的参与下组建，以创建一个符合“联合国互联网治理论坛”核心原则的平台，希望可以更有效地鼓励儿童和青少年表达对互联网议题的想法和增加对此之了解。

Moving this forward, related stakeholders, concerning the media literacy of children, from civil society, academia, private sector, government and technical community, have formed the Multi-stakeholder steering committee (MSG). Working with children and youth, MSG has initiated the YouthIGF of China - Internet Summit for Children and Youth project. The YouthIGF China is now one of the recognised [Internet Governance Forum Initiatives](#) supported by United Nations. At the same time, YouthIGF China is one the first initiatives with the mission to engage the younger generation (Children aged under 14) in the Internet governance discussion, as well as emphasis the discussion on the child-related topics during the forum. Meanwhile, YouthIGF China is operating under the principle of IGF initiatives. It is hoping to raise awareness of children's well-being online and empower our next generation of the society.

2018年9月19日，在第五届广东省网络宣传周期间，在政府、企业和社会各界的支持和协作下，YIGFCN中国“2018年儿童互联网大会”在广州举行。来自北京、广州、西安、重庆、成都、佛山、南宁、保定、西宁、兰州等国内10个城市的数十名少年儿童代表们组成调研小组，就游戏社交、网络学习、火爆短视频、亲子关系、网络语言等网络议题，发布了国内首份由儿童自己编制的儿童网强安全调研报告，并与由政府职能部门、互联网企业代表、学校教师和家长代表等组成的“大人观察员”们进行交流。

On 19 September 2018, during the Guangdong Provincial Network Publicity Week, YouthIGF China was held in Guangzhou with the cooperation and support from the government, private sectors and the public. Children's representatives from 10 cities, including Beijing, Guangzhou, Xi'an, Chongqing, Chengdu, Foshan, Nanning, Baoding, Xining and Lanzhou, participated in the forum. They had formed research groups in advance to study the Internet issues regarding social gaming and networking, online learning, popular online videos, parent-child relationships, as well as Internet slangs. During the forum, they had announced the findings of their prepared research, and discussed the issues with school teachers and parents, as well as "adult observers" from different government departments and Internet corporates.

大会遵循《联合国儿童公约》中关于儿童参与权的基本理念以及联合国 YIGF 青少年网络管制论坛的会议原则，以尊重儿童的主体地位，充分赋权，让儿童发声。通过活动引导广大少年儿童提升网络素养，树立新时代中国好网民意识，并通过亲子共约定，呼吁全社会携起手来，共创网络文明和清朗网络空间。

In addition to the IGF principles, YouthIGF China is also upholding the value highlighted in United Nations Convention on the Rights of the Child (UNCRC). We shared the belief of respecting the agency of children, empowering their rights as well as supporting their participation. Through the program, we are hoping to raise the awareness of public on media literacy of our next generation and nurturing their consciousness of being responsible netizens. More importantly, parents should build better relations with children, and the society at large should hold hand in hand for the betterment of the cyberspace.

大会现场，来自全国 10 城市的儿童代表，正式发布了中国首份由儿童代表自己编制完成的《2018 中国儿童网络安全调查报告》

在报告中，小调研员代表们分别对“游戏社交、网络学习、火爆短视频、亲子关系、网络语言”等网络议题发表自己的调查结果。

孩子们的报告显示出不少当下儿童在网上遇到的安全问题和网络生活话题：

话题一：	网络游戏不单纯，交友、付款样样行，被骗、盗号安全隐患不容忽视
话题二：	超过七成孩子觉得网上学习作用不大，相比网络学习模式孩子们更喜欢传统学习模式
话题三：	超半数的少年儿童刷视频软件成为新日常，三分之一初中生自己作过视频
话题四：	近三成的少年儿童因玩手机与家长产生争执，亲子关系是否和谐是导致争执的根本原因，孩子希望家长尊重孩子，共同约定
话题五：	网络语言是孩子们的流行语，如何适用，值得关注

当然在报告里，儿童调研员们还调查发现了全国 10 个城市孩子心目中的 TOP5。

最不喜欢家长说话的话 TOP5：
“快去学习/快写作业”
“你看别人家的孩子/你看看别人”

在会上，领导为 E 成长小讲师代表授旗，以鼓励他们继续坚持这种善举，并带动身边的小伙伴加入到这支队伍中去。

来自腾讯公司、网易公司、羊城创意产业园、广州市广播电视大学、新东方教育科技集团、卓越教育集团、中科零壹基金、本来生活网、美团点评、有米科技股份有限公司等单位的代表上台，接过了小讲师颁发的“爱心公益伙伴”的奖牌。他们表示，愿意动员各自的资源力量，助力小讲师，一起帮助乡村孩子远离网络侵害。

Child representatives of the E-development scheme had also participated in the forum. The E-development scheme was initiated by Guangzhou Youth Development Foundation with the supervision from the Cyberspace Administration department. In these two years, the scheme was held with the mission to empower students from the city to be the peer lecturers. After the training, peer lecturers would share their knowledge on media literacy and online safety with the children in the remote villages. It was hoping that children from both cities and villages could join hand in committing to be responsible netizens. Peer lecturers had conducted sessions in the places including Guangdong Qingyuan, Zhanjiang, Enping, Guizhou, Sichuan and Guangxi. Meanwhile, the accompanied voluntary professional adult trainers, had also conducted workshops and trainings with the primary school teachers and parents in the visited local villages.

During the forum, one of the peer lecturers had shared her experience in the E-development scheme. “The fragrance always lingers in the hand that gives roses” she said. Through the teaching and sharing, on one hand they could empower and work with peers in promoting online safety, on the other hand, they have learnt to cherish more the family time with her parents.

On the stage, peer lecturers of the E-development scheme had been officially appointed. They had received the leading flag and been encouraged to continue the work by engaging their peers to the team.

Representatives from Tencent, Netease, Yangcheng Creative Industry Park, Guangzhou Open University, New Oriental Education & Technology Group, Beststudy Education Group, Zhongke Zero One Fund, Benlai.com, Meituan Dianping, Youmi Technology Co., Ltd had received the Medal of Charity Partner from the peer lecturers, showing their support to the scheme in promoting the online safety message to the child community in both urban and remote villages at large.

3) 互联网小使者（CRO）发出中国声音 Child Internet Ambassador CRO initiative

图片说明：有关领导为儿童互联网小使者 CRO 颁发证书

在大会上，聆听完儿童代表的报告，来自国内知名的互联网科技企业代表们，也表示要积极承担社会责任。为了保障广大少年儿童的网络安全，更好构建有利于少年儿童成长的清朗网络空间，参加儿童互联网大会的科技公司和相关单位共同发起公约，并倡议全行业联合行动。

腾讯公司、抖音青少年网络健康成长研究中心、网易公司、科大讯飞股份有限公司、唯品会、美团点评、新东方教育科技集团等企业在会上与儿童代表们相约：

我们将履行企业的社会责任，保障儿童权益，保护儿童安全，促进儿童成长；我们愿意主动倾听儿童的心声和建议，尊重他们的身心发展规律和成长成才的需要，联合学界业界，探索建立相关网络儿童安全标准；推动网络公益服务，改善乡村儿童的网络安全问题；我们愿意与孩子约定，共建网络清朗空间，齐做中国好网民。

After exchanging the view with children in the forum, participated tech company representatives had announced the joint declaration, showing their commitment on protecting online safety of children and youth, as well as creating a friendly cyberspace for the development of next generation.

Tencent, Tik Tok Youth Online Healthy Development Research Center, NetEase, iFlytek, Vip.com, Meituan Dianping, New Oriental Education & Technology Group and other companies proclaimed the following statement:

We would fulfil our social responsibility in safeguarding children's rights, protecting children's safety and nurturing children's development. We would actively listen to the voices of children, respect their all rounded development and basic needs. We would at the same time partner with academia on creating corresponding child online safety guidelines. Meanwhile, we would support the charitable initiatives in improving the online safety measure for children in remote area. We would also like to promise that it is our commitment to cooperate with children in a move to build the better cyberspace and be responsible netizens together.
