A. ISSUES AND THEMES
- Think long-term and develop a multi-year thematic framework of the IGF.
- Limit number of themes to 3-4 max to support concrete outputs
- The IGF 2022 call for inputs results should be looked at holistically, not just what scored the highest.
- It was suggested that Internet Security needs to be one of the themes
- Themes should be relevant to global political and UN processes on digitalization: G20, WSIS+20, OEWG, GA, Our Common Agenda, Digital Roadmap etc.
- Focus on the 12 commitments and digital issues of the Our Common Agenda report.
- Different issues can be organized in baskets that are being envisaged for the Global Digital Compact, FOR EXAMPLE:
  - 1. Connecting the unconnected
  - 2. Avoid internet fragmentation
  - 3. Data use and governance
  - 4. Trustworthy Internet
  - 5. Regulation of AI
- The following tag lines were suggested by the host country :
  - Internet for shared prosperity
  - Unleashing shared prosperity
  - An Internet of opportunity
  - Resilient Internet for a sustainable future
